

H. SPENCER LEWIS ON ALCHEMY

H. Spencer Lewis, Co-founder and Imperator of the Rosicrucian Order, AMORC (1915 – 1939).

The Rosicrucians and mystics who performed so many experiments in their laboratories, were seeking, through the material laws of the universe, to discover universal principles which had their action and reaction in the spiritual world as well as in the material world. They believed that just as the difference between gross metal and pure gold was a difference in character, constituted by the various rates of vibrations and by the presence of impure or unevolved elements, so the differences in human character were the result of impure and inharmonious elements which might be transmuted and changed into the pureness of spiritual life here on earth.
